## CHOOSING CONSCIOUS ELDERHOOD

*Discovering purpose, passion and the call to service in the elder third of life*

**April 9-15, 2025**

**At Hope Springs Institute,  
in the verdant Appalachian foothills of Southern Ohio**

It is in the natural world that we can most easily remember that which is authentic and natural in ourselves, and thus gain an eagle's eye view of our place and potential in the larger web of life. That is why, since time immemorial, at critical turning points in life, people have retreated to wilderness places to focus and intensify their inner questing and then return to their communities renewed and with new insight about how best to contribute in the next stages of their lives. That is why many individuals feeling called to prepare for and claim the role of elder have chosen to experience the Choosing Conscious Elderhood retreats over the past twenty-four years.

There is a big difference between simply becoming old and aging consciously--aging with intent. This retreat, for people in or approaching their senior years (55+), provides a dynamic experiential introduction to conscious aging and the types of inner work that are important on the path toward becoming a **conscious** elder. Such an elderhood is a role that is consciously chosen and grown into through preparation at all levels—physical, psychological and spiritual. We invite you to join us for an inspiring, growth promoting week at beautiful Hope Springs as the season of new life is emerging in this verdant land of forest and meadow.

*This retreat will help you address questions such as:*

- *How can I transform fear of aging into anticipation of the rich possibilities of elderhood?*
- *What does it mean to become an elder at this time of profound cultural transition?*
- *How can the elder third of my life be the pinnacle of my emotional and spiritual development?*
- *How am I called to be of service to the human and earth community as I age?*
- *What inner work do I need to do to age consciously, to strengthen my resilience, and to prepare to fully claim and embody my elderhood?*

**THE FORMAT** Using reflective time in nature, life review and legacy work, ceremony, sharing councils, and a day-long solo, we focus on the major themes of conscious eldering: belief; review and release of the past; living with purpose and meaning; community; and spiritual deepening. Empowered by strong supportive community, skilled guidance, and the heart opening power of the natural world, you will have an opportunity to let go of old beliefs, attachments, and attitudes that no longer serve you, and to get in touch with expanded vision for, and commitment to, your potential as a *conscious* elder..
